### Property Overview

Located in a premier equestrian corridor just west of Ocala, this 108± acre horse farm offers a rare combination of operational scale, strategic location, and long-term upside. With significant road frontage along W Highway 40, the property sits directly across from the nearly 700-acre Golden Ocala acquisition—a major development poised to elevate the surrounding market and equestrian landscape.

Purpose-built for large-scale equestrian use, the property includes more than 14,000 square feet of barn infrastructure, including two expansive horse barns, multiple open sheds, utility buildings, and general-purpose storage. A regulation training track anchors the layout, surrounded by several cross-fenced paddocks and over 27,000 linear feet of board, vinyl, wire, and masonry fencing.

Two on-site residences built in 1958 provide over 3,483 square feet of combined living space. One features 4 bedrooms, the other 3 bedrooms with additional improvements, suitable for staff housing or owner occupancy. Utility infrastructure includes multiple wells and septic systems, electric service, and paved internal roads.

With close access to Ocala, Gainesville, and Tampa, and surrounded by top-tier training centers and farmland, this property is ideally suited for a training or breeding facility with future development potential. The combination of equestrian infrastructure, zoning flexibility, and premier location makes this a standout opportunity in Florida's horse capital.
